## ABOUT ME

Hello! I'm RAVI, a passionate, innovative, and detail-driven graphic designer with [X] years of experience in transforming creative ideas into visually compelling designs. I specialize in crafting designs that not only capture attention but also tell meaningful stories—designs that communicate, inspire and resonate. Whether it's creating unforgettable logos, developing strong brand identities, or producing captivating digital illustrations I thrive on turning concept into powerful visual experiences that connect with audiences a deeper level.

## EXPERIENCE

With one year of experience at [Agency Name], I developed a strong foundation in graphic design, specializing in creating engaging thumbnails, promotional flyers, event posters, and business cards. I focused on producing visually striking designs that effectively communicated client messages while maintaining brand consistency. By collaborating closely with clients, I ensured each design aligned with their vision and business goals. This hands-on experience helped me refine my skills in time management, design execution, and using tools like Adobe Photoshop, Illustrator, and InDesign to deliver high-quality, creative solutions.

## EDUCATION

Bachelor of Science in Data Science  
thakur college of science & commerce,  
mumbai, maharashtra
